Hello, Time Travellers!

8 It's sonic quiz time!

Good news, everyone - this week's issue has quite a lot of stuff about me in it! About time, too, I'm sure you'll agree. Monsters and scary things and nasty eye-patch ladies are all very well, but you can't beat a bit of your favourite Time Lord, can you? Check out my most heroic moments on page 6! There are some pages that aren't all me, me, me, of course, but I seem to have run out of space to tell you about those! Shame.

Even as a Ganger, the Doctor is as heroic as ever, sacrificing himself so the others can escape from the deadly Flesh monster!

DO YOU REMEMBER THE OPENING CHASE OF DAY OF THE MOON?

Chosen by *Doctor Who Adventures* reader

SAM WILSON

WHAT'S HAPPENING?

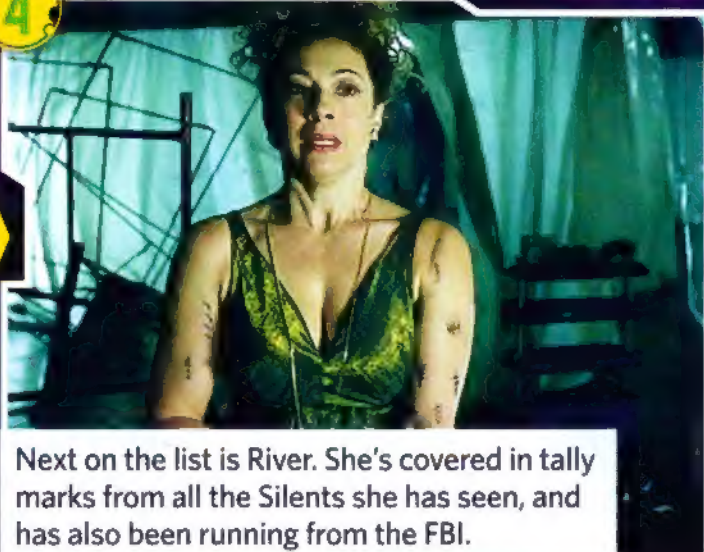

Canton Delaware and the FBI are hunting for the Doctor's friends. They track them down one by one and take Amy and Rory to Area 51 - where they are holding the Doctor hostage.

1

Amy is running from Canton and his fellow agents. A helicopter tracks her from above and cars screech behind her. She's surrounded.

4

Next on the list is River. She's covered in tally marks from all the Silents she has seen, and has also been running from the FBI.

7

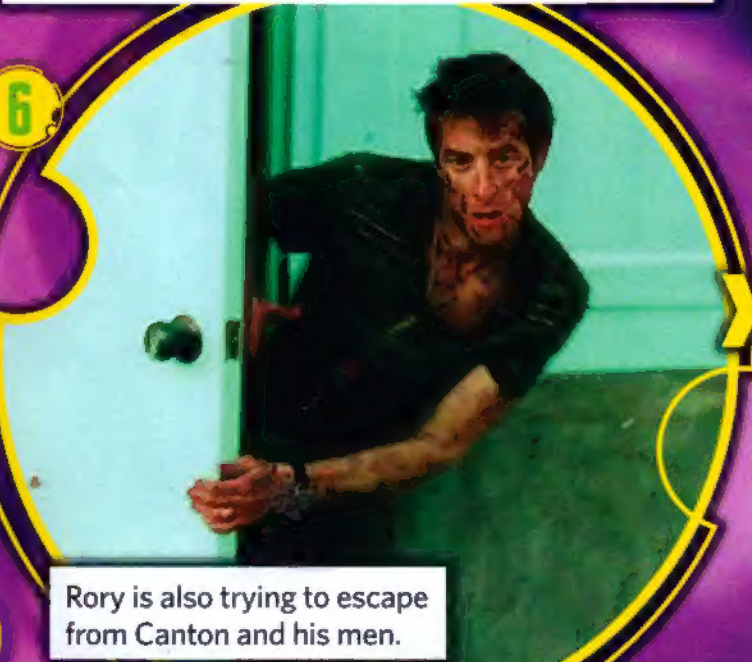

But there are too many of them and he's cornered. Canton pulls the trigger and Rory is taken away.

3

He shoots her and she falls to the ground. The men in black take her away.

6

Rory is also trying to escape from Canton and his men.

10

LIVES!

2

Do you even know why you're doing this?

Amy has nowhere to run. Canton approaches her and holds her at gunpoint.

5

There's no way out, this time.

There's always a way out!

River tells Canton that the Silence are everywhere - even in that very room. Canton demands that she give herself up, but she dives off the building instead!

8

Is there a reason you're doing this?

At Area 51, the Doctor is held prisoner. When Canton turns up with Rory and Amy in bodybags, we realise that all is not as it seems!

America is being invaded!

FACT FILE TARDIS SCANNER

THIS WEEK, WE POINT THE
SCANNER AT A SILURIAN!

TONGUE

Silurians have very long tongues, which they can use to sting their enemies. The venom from a Silurian's tongue can cause mutations in humans.

MASK

Silurians' scary metal masks allow the wearer to see information from built-in sensors.

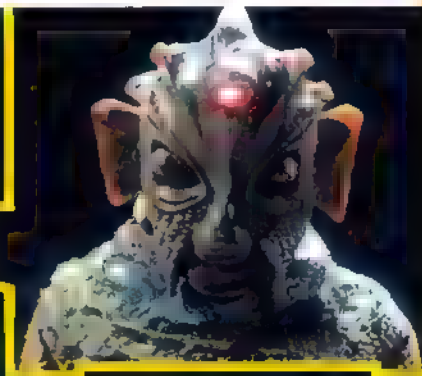

WEAPONS

Madame Vastra is skilled with a sword, but other Silurians use heat rays or the power of their third eye to defend themselves.

CREST

Silurians have impressive crests on top of their heads. The central crest sometimes contains a third eye, which they use to talk to each other telepathically.

SKIN

Like all reptiles, Silurians have protective scales all over their skin. Silurian scales are green or brown.

HANDS

Some Silurians have only three fingers on each hand!

CLOTHES

Madame Vastra dresses like a Victorian adventurer, while other Silurians wear armour or ornate robes. And there are Silurian tribes that wear no clothes at all!

FAST FACT!

Silurians built a great civilisation on Earth at least 300 million years before human beings evolved!

DOCTOR DOCTOR!

DO YOU HAVE A PROBLEM THAT NEEDS SOLVING? THEN ASK THE DOCTOR!

Wrinkles? They're laugh lines, young man!

THE FIRST DOCTOR!

FAST FACT!

The First Doctor appeared in 1963 and was played by William Hartnell. He played the Doctor for three years!

OLD DOCTORS!

Time Lords never die, but they do get older. Why don't they get wrinkles and stuff? Oh yeah, and 'cos you wear the same jacket all the time, doesn't it get dirty?

Kitty Edwards

THE DOCTOR REPLIES: Ah,

obviously you've never met the first me, have you? Wrinkles on his wrinkles, he had. I used to take more care of myself when I was younger, only, I've become a bit careless in my old age. Regenerations left, right and centre. Which is why I've not had time to go all wrinkly yet. Nothing wrong with wrinkles. Wrinkles are cool. Hopefully I'll have this body long enough to get some. And don't you start going on about my jacket as well!

WHEN I GROW UP...

Doctor, what did you want to be when you were little?

SAPPHIRE

THE DOCTOR REPLIES:

Bigger on the outside than the inside. I had this... thing, when I was really little. A kind of a worry. About being dimensionally transcendental. I thought everything was like a TARDIS inside, even babies. And nappies. Especially nappies.

My baby is not like a TARDIS!

THE DOCTOR'S COT!

TRICKY TARDIS!

Why does the TARDIS have such complicated controls?

Otto Neech

THE DOCTOR REPLIES:

They're not complicated. Not really. OK, so maybe

I don't know what all of them do. Like the flashing green one. And the shiny red thing. Anyway, it's more fun to make up what they do, otherwise it would be all boring, and I don't do boring. Still, if you happen to see a copy of the TARDIS manual, do bung it my way. There's a whizzy spinny knob thingy under the Space Tremulator, and it's been buzzing a bit. Should probably find out why.
